

IFRS training opportunities

PwC Switzerland has extended its offering of IFRS training for the Swiss market through a joint arrangement with the public seminar organisation IASeminars.

Through this arrangement we are able to offer a selection of additional, focused IFRS courses to supplement our very successful existing events:

- IFRS Campus
- Technical Update Seminars

These additional courses will permit participants to complete extended and in depth training in specific accounting topics or industries. Under this arrangement PwC Switzerland is responsible both for the content and for the presentation so we are able to ensure the highest quality tuition for our clients.

About IASeminars

Over the past ten years, IASeminars has established itself as the world's leading specialist provider of international accounting seminars.

With offices in London and Washington DC, IASeminars offers over 500 public courses each year on five continents.
