

# IFRS

for the  
Canadian  
Oil and Gas  
Sector

**Deloitte.**

**IASeminars** is working with **Deloitte & Touche LLP** and the Institute of **Chartered Accountants of Alberta** to provide practical and relevant IFRS information to the Canadian oil and gas sector.

COURSE 1630: A ONE-DAY WORKSHOP LED BY IFRS INDUSTRY EXPERTS FROM DELOITTE

## IFRS HOT TOPICS FOR OIL AND GAS ENTITIES

- 20 September 2010, Calgary

Building on similar past successful IFRS events relating to the Canadian Oil & Gas sector held in 2009/10, this one-day course **led by Deloitte IFRS oil and gas specialists** has been specifically developed for Canadian oil and gas entities who may benefit from last minute guidance and information with regards to their transition from Canadian GAAP to IFRS.

Over the **8 hours** spent in intensive professional training and dialogue, participants will be able to review the critical issues involved in IFRS implementation, and have the opportunity to interact with the **Deloitte IFRS oil and gas specialists** and also with their peers in a last minute “reality check” interactive environment.

The learning objectives will be achieved by undertaking mini **case studies**, by group discussions on **real-world issues** and from the in-depth **interactive sessions** facilitated by the **Deloitte IFRS oil and gas specialists** and designed to illustrate key conceptual and pragmatic issues.

### Topics Covered Include:

- Recent IFRS developments
- Regulatory developments
- Applying deemed cost (oil and gas assets) exemption
- Other areas of consideration when preparing IFRS compliant financial statements
- Practical considerations to execute final push for compliance

**Course Fees: CAD 999 + GST**

Specialists in IFRS & US GAAP training for over 10 years

## Other IASeminars events of interest to the Canadian Energy Sector:

### Course 1600: Oil & Gas Accounting Fundamentals (3-day course)

- 13 Sept 2010 in Calgary

This elementary three-day course focuses on the accounting standards, corporate reporting and financial analyses that relate specifically to the oil and gas industry. Both IFRS and US/Canadian GAAP requirements will be considered.

### Course 1605: IFRS for the Oil & Gas Sector (2-day course)

- 16 Sept 2010 in Calgary

This intermediate two-day course focuses on the specific accounting and reporting requirements for extractive industries (Oil & Gas). Topics are presented through the use of practical examples and illustrative financial statements.

### Course 1625: IFRS Workshop for the Oil & Gas Sector (3-day course)

- 8 Dec 2010 in Calgary

This intermediate three-day course focuses on the specific accounting and reporting requirements that affect the international oil and gas industry. Topics are covered by means of tutorials, practical examples and illustrations from published financial statements.

### Course 1701: Emerging IFRS Issues for Utility Companies

- 7 Dec 2010 in Calgary

This one-day course examines in detail recently issued standards, interpretations and emerging international accounting issues and their effect on utility companies. Topics will be presented through the use of case studies, examples, exercises, and illustrative financial statements.
